April 11, 2007

Grand Jury
Mel Carnahan Building
1114 Market Street
St. Louis, Mo. 63103

To whom it may concern:

I am Sergeant Stanley Mierzejewski, Investigator, Internal Affairs Division. I am conducting a criminal investigation in a matter which involves eight (8) Department Employees. I am requesting a subpoena for cell phone and or residential phone records of each Department Employee. Information that may be found in these records could be instrumental in the investigation.

Summary of Incident:

In October of 2006, a detail was put in place by the St. Louis Police Department to govern the activities involved with the St. Louis Cardinals advancement to the World Series, one of which was to enforce "ticket scalping," which is selling tickets to an event, at a price higher than the face value of the ticket. One (1) commander, three (3) sergeants, and eighteen (18) officers were assigned to this aspect of the detail.

Three World Series games were played in St. Louis on October 24, game 3, October 25, game 4, which was rained out, October 26, game 5, and October 27, game 4 the rain out game was replayed. During the detail, forty three (43) ticket scalping reports were made and ninety eight (98) tickets were seized. In one case an arrestee alleged that tickets seized from him were being used by the officers who seized them. An internal investigation was initiated. Of the ninety eight (98) tickets seized, thirty one (31) tickets were found to be scanned after the tickets were seized by officers. Of the twenty two officers involved in the operation, eight were found to have improprieties with tickets seized during their arrest. With that said, I am requesting the cell phone records of those eight officers to examine any calls made by them during the time they were working this detail, in an effort to track a calls time line, in conjunction with an arrest over the four day detail to see if there is a pattern that exists.

The following information is to an USA Mobility direct customer.

A direct account may be a company that has their employees set up with USA Mobility pagers or it may be an individual who has set up an account in their name. If it is a company, you will need to contact them -directly and find out who has been assigned that specific pager number.

The USA Mobility telephony-paging network is not provisioned to receive call detail records from the Phone Company for local pager numbers. In fact, in most cases, the local phone companies themselves do not generate/store call detail records for calls placed to pagers with a local number. There is a possibility if a call originated outside the local calling area that a toll record was generated for that call and used for compensation purposes between the respective phone companies. Either way, that information would not have been passed to USA Mobility.

As a company USA Mobility does not store any incoming pages for any of its subscribers. As the service provider to over 7 million paging end users, and due to the high churn in the paging industry, we are not able to absorb the costs involved in long term storage of historical data.

For specific subscriber/billing information you will need to subpoena each corporation directly.

Please do not hesitate to call if you have any questions or Email me at Kimberly.Edwards@USAMobility.com

RE: Charter Case No. 5589

Dear Sergeant Mierzejewski:

Charter Communications, Inc. ("Charter") acknowledges receipt of the April 12, 2007, subpoena for subscriber information associated with the telephone number 314-392-3159.

Pursuant to your request, Charter investigated but was unable to identify subscriber information.

Please note that our inability to identify subscriber information for this request does not guarantee that such records do not exist. Our billing and related records, which we searched for the requested information, are subject to human error and it is possible the records were misplaced

If you have any questions about this correspondence please fax your questions to the attention of the law enforcement paralegal at (314) 909-0609. In any correspondence please reference the four digit case number that is printed in the lower left hand corner of this response.

Sincerely,

A handwritten signature in black ink, appearing to read 'Christopher Avery', written over a horizontal line.

request as well as a Subpoena from the 22nd Judicial Circuit. If possible, please fax

the information to me at my fax number. If you would prefer, you may mail the

document to: St. Louis Police Department (Internal Affairs Division), C/O Sergeant

Stanley Mierzejewski, 1200 Clark, St. Louis, Mo. 63103. This is my second request.

I have not received either phone record to date. If you need to speak with me please

feel free to call. Cordially, Sgt. Stan Mierzejewski

COL. JOSEPH MOKWA, CHIEF OF POLICE

Service, Integrity, Leadership And Fair Treatment To All.

METROPOLITAN POLICE DEPARTMENT

CITY OF ST. LOUIS • 1200 CLARK AVENUE • ST. LOUIS, MISSOURI 63103

April 11, 2007

Grand Jury
Mel Carnahan Building
1114 Market Street
St. Louis, Mo. 63103

To whom it may concern:

I am Sergeant Stanley Mierzejewski, Investigator, Internal Affairs Division. I am conducting a criminal investigation in a matter which involves eight (8) Department Employees. I am requesting a subpoena for cell phone and or residential phone records of each Department Employee. Information that may be found in these records could be instrumental in the investigation.

Summary of Incident:

In October of 2006, a detail was put in place by the St. Louis Police Department to govern the activities involved with the St. Louis Cardinals advancement to the World Series, one of which was to enforce "ticket scalping," which is selling tickets to an event, at a price higher than the face value of the ticket. One (1) commander, three (3) sergeants, and eighteen (18) officers were assigned to this aspect of the detail.

Three World Series games were played in St. Louis on October 24, game 3, October 25, game 4, which was rained out, October 26, game 5, and October 27, game 4 the rain out game was re-played. During the detail, forty three (43) ticket scalping reports were made and ninety eight (98) tickets were seized. In one case an arrestee alleged that tickets seized from him were being used by the officers who seized them. An internal investigation was initiated. Of the ninety eight (98) tickets seized, thirty one (31) tickets were found to be scanned after the tickets were seized by officers. Of the twenty two officers involved in the operation, eight were found to have improprieties with tickets seized during their arrest. With that said, I am requesting the cell phone records of those eight officers to examine any calls made by them during the time they were working this detail, in an effort to track a calls time line, in conjunction with an arrest over the four day detail to see if there is a pattern that exists.
